

SAMSARA 9 CHANDELIER

Exceptional craftsmanship. Unlike anything else.

White porcelain rings are attached to a metal spine. Warm, dimmable LEDs are inlaid on the inside surface of each ring.

The sculpture is inspired by the arching ribs of a whale skeleton bleached in the sun. There's a tension between the grace and fragility of the rings and the strength and rigidity of the metal spine - a moment of perfect balance frozen in time.

The sculpture can cast gentle candlelight on a dining table or brighten an entire room.
